

MILLER – WELDING SETS

Gold Star Series

Built-in arc control for Stick welding allows operators more flexibility when welding in tight areas where sticking electrodes a problem.

Hot Start™ make it easy to start difficult electrodes.

Simple control panel provides easy, efficient operation.

Unique **Fan-on Demand**™ cooling system operates only when needed. Reduces contaminations drawn into the machine and excess noise in work areas.

Automatic thermal overload protection with indicator light.

Enclosed circuit board provides additional protection by eliminating contaminants which cause premature failure of components.

Power efficient for exceptional value and return on your investment.

Power cord strain relief.

Optional digital voltmeter and ammeter.

Remote control capability allows operators s fine tuning capability at an extended distance.

| Model | Stock Number | Rated Output | Amperage Range in CC mode | Max. Open-Circuit Voltage | Shipping Weight |
|--------------------------|---|---------------------------------|---------------------------|---------------------------|-----------------|
| Gold Star 452/602 | (#903 400) 230/460/575 V (#903 400) 380/400/440 V, 50/60 Hz (#903 400-01-6) 380/400/440 V, 50/60 Hz, CE | 450 A at 38 VDC, 60% Duty Cycle | 20-590 | 72 VDC | 210 KG (460 lb) |
